

NIKHIL TAPARIA

Marothi chowk, Nokha 334803 | +918094213194 | taparianikhil13@gmail.com

OBJECTIVE

Highly energetic and committed student. Capable of working in multiple projects at a time with minimum supervision. Happy to be in project for creating and innovating something new that helps us and our future generation.

SKILLS & ABILITIES

My core skill is Research and implement, critical thinking, problem solving and good communication.

I am familiar with C, CPP, PYTHON, HTML, CSS, JavaScript, React, Node.js, MongoDB and have computer technical knowledge.

EXPERIENCE

- 18|09|21- Till Now Internship, *Center for Applied Research in Education (SRM CARE)*
- My present work at CARE is creating lab Programming courses and making myself comfortable with MERN developer and Linux. Then developing portal and creating tools.
- 20|09|21- Till Now Full stack developer, Software Engineering project (SRMIST)
- Name of the project is Student management and tracking system (SMTS). In this project we are developing a web application for schools those who can't afford online database and portal. In Covid-19 we have seen district and village level schools faces many problems. This web application will help school and their students and take them to the next level of online management and record access.
- 15|10|21- Till Now Associate Technical Lead, Computing Technology Association at *SRM*
- Previously I joined as programmer after seeing my performance I got promoted to Associate Technical Lead of the club. My work is managing the website of club and handling technical problems and contests.
- 10|05|21- Till Now Programmer, *Guvi code camp SRM*
- My present designation at GCC is competitive coder and programmer. Currently developing version 2 of a discord Bot in python.

EDUCATION

- 15|10|2020 - Till Now B. Tech CSBS, SRM Institute of Science and Technology, Kattankulathur

COMMUNICATION

Meeting new people is very exciting for me because I interact with people very fast also, I don't judge people by their choice and nature. But for me work comes first. I also reply everyone when I get free time because I'm time punctual person. I believe that for a good conversation we must listen carefully.

LEADERSHIP

My experience is developing something easy to use make it hard to build. I also have managed technical works and annual function in school. I am also chosen as CR of my batch and working from 2nd semester to till now and Team leader of my Software engineering project. To Achieve my goals, I believe on myself and on my teammates, because for me credits can be low, but satisfaction must be high
